

Grad School

You stayed the course, put in the work...now the fun multiplies! Work on that MBA (Must Be Active) degree with your dog...

We offer post-graduate courses for you and your companion that are Custom Programs, based on where you and your dog are in the training spectrum and what specifically you want to accomplish. Some areas that can be included are:

- *Proof It* – working the skills against various distractions to make the skills ‘rock-solid’ in as many environments as possible
- *Tricks for Treats* – continue the training bonding process and at the same time, give your dog some fun ‘tricks’ to do
- *Let the Games Begin* – learn fun, safe, highly rewarding games to play with your dog to ensure the bonding process continues and your dog’s energy is expended in fun and constructive ways.
- *Close Order Drill* – build walking skills while learning in real-world public environments
- *Walk With Me...some more* – building the ‘off-lead’ walking skills, proofing in high distraction environments.
- *Lassie Find Timmy!* – teach your dog to track and to find everyone in the household.
- *Many other opportunities*, based on an analysis of your needs.
